New Mental Health Crisis Walk-In Center Coming to Morongo Basin

On Tuesday the Board of Supervisors voted to approve a contract with Morongo Basin Mental Health Association, Inc. for Crisis Stabilization and Outpatient Mental Health services to residents within the Morongo Basin.

“I am very pleased that we are able to provide urgent mental health services to residents within the Morongo Basin,” said Third District Supervisor Dennis Hansberger. “It is crucial that these patients get immediate assistance in order to ensure their safety.”

The contract will provide urgent mental health services to severely mentally ill adults and children. Funding for this service comes from Proposition 63, approved by voters in 2004. Crisis stabilization services have not previously been available within the Basin; therefore, clients had to drive or be transported over 100 miles to the nearest facility.
